

## ACTRIS National Facility Technical and Scientific Forum First meeting (founding meeting) 10<sup>th</sup> May 2022 9-11 CEST

The NF Technical and Scientific Forum is established during the ACTRIS Interim Phase, and it shall continue also after the ACTRIS ERIC has been established in near future. The first meeting will be organized virtually on 10<sup>th</sup> May 2022 (9-11 CEST). The meeting is organized back-to-back with the 1<sup>st</sup> ACTRIS Science Conference 11<sup>th</sup>-13<sup>th</sup> May 2022.

We have reserved 2 hours for the first NF Forum meeting with the main aim of having the body established and the co-chairs officially nominated. The meeting will discuss specific topics related to data licensing and upgrading of the National Facilities in relation to the ACTRIS NF labelling, as well as the topics for the next meetings.

**The Forum is meant for all the ACTRIS National Facility Principal Investigators (PI) and ACTRIS National Facility scientists and technicians to interact with each other and with the ACTRIS Central Facilities, and exchange experiences.** The NF Technical and Scientific Forum is composed of NF representatives, without any restriction regarding the number of representatives per NF, country or ACTRIS field. The Central Facilities should also participate in the meetings.

### Meeting agenda

1. Purpose and aim of the Forum – to serve the needs of the National Facilities  
*(ACTRIS Head Office, 10 min)*
2. Nomination of the NF Technical and Scientific Forum two co-Chairs – proposal for approval  
*(ACTRIS Head Office, 15 min)*
3. NF representatives to the (Interim) RI Committee representing 6 different ACTRIS components  
*(aerosol in situ, aerosol remote sensing, cloud in situ, cloud remote sensing, reactive trace gases in situ, reactive trace gases remote sensing) and roadmap for future*  
*(ACTRIS Head Office, 10 min)*
4. Discussion on the future topics of the Forum  
*(ACTRIS Science Chair Paolo Laj, NF representatives, 30 min)*
5. Specific topics for information and discussion
  - a. Data licensing *(Data Centre, 20 min)*
  - b. Upgrades needed for NF labelling *(Kostas Eleftheriadis and other NF representatives, 20 min)*
6. Next meeting and its focus (15 min)
